#### (v) Training Programme

The training courses conducted by your Exchange are aimed at improving the financial literacy levels in the securities industry. These courses are conducted not from the point of pure commercial interest, but also with the objective of increasing the level of knowledge on the various aspects of the securities market. Your Exchange believes that it is essential for all the participants operating in the securities industry to be fully aware of not only the practical aspects related to day-to-day functioning, but also the regulatory framework governing the operations of the intermediaries and their clients. Training and education, therefore, are seen by your Exchange as initiatives to help reduce operational risks and improve confidence levels in the market.

Details of training programmes conducted during 2007-08 are given in Table No. 9
