

Vishal Subandh

Author Name

Vishal Subandh

Qualification

Completed Bachelor of Computer Engineering at University of Pune, India and went on to pursue Masters in Finance degree at Cranfield School of Management, London

Work Experience

Currently working as a full time proprietary day trader and fund manager trading in Indian equities, futures, options and forex markets. Worked with leading investment banks such ING Bank, Netherlands and Credit Suisse, India in the fields of institutional dealing, trading, risk and data management gathering an experience of over 5.5 years in the financial markets field.

Other details

My passion for financial markets started from early days of my college where I started investing in blue chip companies in India. That was just the beginning of this awesome journey!

I believe in the truest sense the best trader and investor is always the one who gauges the world markets and keeps an eye on the macroscopic view.
